

# ROLL-A-BOUTS PRIVATE ACCESS

Made of 18 gauge steel, Salsbury 2300 series Roll-A-Bouts include casters for mobility and are useful when space is limited as wall construction is not required. Roll-A-Bouts are rear loading and feature a durable powder coated finish. Aluminum style Roll-A-Bouts (#2300) are designed to accommodate a combination of five (5) aluminum rack ladder system mailboxes and data distribution system mailboxes (see pages 44-47) and are powder coated black. Brass style Roll-A-Bouts (#2350) are designed to accommodate a combination of two (2) brass or Americana style rear loading mailbox units (see pages 48-51) and are powder coated tan. Units include a large rear door and are locked by placing a standard padlock (order optional keyed padlock #2390 - \$10.00) through a steel hasp and are an excellent way to add a private postal center to an existing business.
